

RefShare

New RefWorks Feature Now Available

<http://jeffline.jefferson.edu/Education/edservices/refworks/>

RefShare is a new tool for the global dissemination and publication of RefWorks databases via the Internet.

*RefShare enables you to make available a central, customizable Web page that allows you to post your RefWorks databases or folders. The **databases are easily accessible from the site**, and you can also **easily share access** to this information with anyone via e-mail. RefShare provides a quick and easy way to share information with not only other Jefferson researchers, but, also **globally** with any researcher who has Internet access.*

Features of RefShare:

- Users control access of their data with a variety of options
- Viewers can search, download, print, export, and contact the original author by e-mail
- Access can be limited to a particular community of users
- Research information is easily accessible by a global audience

Uses of RefShare:

- Post class reading lists on a central Web page
- Provide easy access to information for disparate researchers collaborating on a project
- Create and share databases of frequently-requested reference queries by topic
- Provide a linkable database of research done by specific faculty members
- Publish an internal database of references for easy sharing within your institution
