Scope and Contents

This collection consists of notebooks (1927-1931) written by Dr. Hawley during his time as a student at Jefferson Medical College. The collection also contains other notebooks used by Dr. Hawley, but written by others. Topics documented by the notebooks include: chemistry, ethics, histology, obstetrics and pathology.

Organization and Arrangement

Arranged in chronological order where possible.

Restrictions on Use and Access

Handwritten notebooks cannot be photocopied due to the fragility of the items.
