18. Please add additional comments (strengths, weaknesses, miscellaneous tips...)

Cooper's dermatology program is small (they accept 1 person/yr) so this has its advantages and disadvantages. You will get to know the residents and attendings VERY well. Everyone is very smart and very interested in teaching students. They also see a good deal of pediatric dermatology and have 2 attendings who are double boarded in peds derm. Dr. Heymann is also boarded in pathology. You will spend your time between the Cooper Hospital clinic in Camden and the

private Marlton office, which gives you a good variety in your patient population and pathology. Minimal cosmetic derm.

THANK YOU!
