- 6. Did this rotation impact your interest in this program? How?** Increased my interest in the program by exposing me to its residents, fellows, and attendings. In addition, being able to effectively act as a Sub-I in this type of program increased confidence in myself to be able to handle the responsibilities of this program.

13. Were there any special requirements for the rotation (i.e. BLS recertification, LOR, etc.) I don't believe so

14. Is Housing provided? If not, can you recommend housing options?

No housing provided. I still lived in my apartment near Jeff and commuted.

15. Is parking provided? If not, any recommendations? They have a parking lot away from the hospital where you can use a shuttle to get there, but it costs money to park there. I used a bus.

16. Would you recommend this rotation to future students? Yes, especially if you are interested in the program

17. Any other comments, suggestions or tips? Be prepared to act as an intern. They use EPIC as well so the learning curve for the EMR is not an issue. On my team, I since I was treated like an intern, I was not expected to make presentations but taking the initiative always helps. Lunch is served daily. You get around \$50 for meals.

18. OPTIONAL: Would you like to include your contact information?
