10. Any tips on how to get the most out of this rotation? I actually do not recommend this rotation, not because of the hospital, but because you do not spend any time with the residents and the attendings you work with are not the most friendly. All in all it was an ok experience and I did learn a great deal about managing constipation, but definitely not what I hoped to get out of the rotation.
11. Any warnings or tips on what NOT to do?
12. Did you get a letter of recommendation? No
13. Did this rotation help you get an interview? possibly
14. Is housing provided? If not, any recommendations on where to stay? It's in Philly
15. Is parking provided? If not, any recommendations on where to park? Parking provided in garage, but costs \$2.50 a day
16. Who did you contact to set up this rotation? Marcine.Townes@drexelmed.edu
17. Would you recommend this rotation to future JMC 4th years? Probably not
18. Please add additional comments (strengths, weaknesses, miscellaneous tips...) – see above! Also, the department was undergoing some changes while I was there so some of the political issues may have influenced my experience there. I think a rotation on the inpatient service would be more beneficial if you are interested in a residency at St. Chris.

THANK YOU!
