Create new interest in the specialty

Reinforce existing interest

Any tips on how to get the most out of this rotation? Do what you want. You can spend time in any part of the radiology department and no one will mind, so go watch the things that interest you. The interventionalists are fun to work with.

Any tips on what NOT to do? They're flexible, you can do anything there except insult the program director.

Did you get a letter of recommendation? Yes, from Dr. Mendelson

Did this rotation help you get an interview? I don't know yet. Hope so.

Is housing provided? If not, any recommendations on where to stay? I don't know, but I found an apartment on Craig's list.

Is parking provided? If not, any recommendation on where to park? No car is needed in Manhattan, but I didn't investigate parking. I know some of the residents drive from Jersey, so there is a garage, but I think you have to pay.

Who did you contact to set up the rotation? Ms. Gifty Mensah is the program director's secretary and helped me set up the rotation.

Would you recommend this rotation to future JMC 4th years? Sure, if you're interested in doing radiology and want to match at Sinai.

Please add any other comments (strengths, weaknesses, miscellaneous tips, etc.):

THANK YOU!
