

RELEASE FORM

I hereby consent and agree to have the presentations in my course recorded on the premises of Thomas Jefferson University. I understand that these recordings will be made available to students enrolled at Thomas Jefferson University in the class to which the presentation was made. Recordings and course content are kept in Pulse until that class-year graduates (a maximum of four years). Lecture recordings include an "enhanced podcast" version. This version of each lecture includes audio and slides, which are both available for downloading by the students. If other faculty are teaching in this course I have contacted them about the recordings and have secured their permissions to be recorded except as noted in the schedule. NOTE: Grand Rounds presentations will not be recorded.

A recording may be removed from PULSE at the end of the academic year (following all examinations) during which it was recorded, by the faculty who created the presentation. To do this, a written request must be sent to Dr. Frisby, the AISR Director of Education Services. Recordings not removed from Pulse by request will be made available to the University Archives after 4 years. Any downloaded enhanced podcast files remain on a student's computer until deleted by the student.
