Infant Toddler Service Delivery Learning Path

[EITA's webpage](#) includes information about this series of self-paced, online modules, webinars, and resources that provide foundational knowledge about the Family-Guided Routines-Based Intervention (FGRBI) approach that Pennsylvania has adopted to guide infant toddler early intervention service delivery.

Providers who worked in Philadelphia infant toddler programs (PITEI) last year should have already completed the first two modules: EI Service Delivery Online Course and FGRBI Online Course.

We encourage all providers with experience in PITEI to continue to progress through the Learning Path as part of their self-choice professional development activity during the 2023-24 year. These programs will familiarize participants with the FGRBI approach and help them gain competence in using these coaching strategies to support parents and caregivers to promote their infants' and toddlers' development.

2023-24 Competency:

This is a required professional development program for all Intermediate and Experienced providers to complete by June 30, 2024. Register for this training using the link below.
