35th Annual Advances in Gastroenterology Conference

Saturday, June 20, 2015 | Sheraton Atlantic City Convention Center Hotel

On behalf of the Jefferson Digestive Diseases Institute at Thomas Jefferson University, we cordially invite you to advance your knowledge and practice of medicine at the *35th Annual Advances in Gastroenterology Conference* to be held on Saturday, June 20, 2015. We will gather at the conveniently located Sheraton Atlantic City Convention Center Hotel in Atlantic City, New Jersey. Join us for a day packed with education and collegiality, in the center of New Jersey's famous shores!

As you pursue the variety of topics, you'll find a complete review of advances of gastroenterology, with an emphasis on practical, clinical applications, and case-based presentations. The educational format for this conference will feature presentations from experts in the field of Gastroenterology, Hepatology, and Surgery. An experienced nurse practitioner will join the panel discussions to provide the nursing perspective to the discussion.

To continue our 3rd decade of evidence-based education, we have selected a distinguished panel of faculty who will share their diverse expertise and clinical experience with us, featuring experts in the fields of Gastroenterology and Hepatology: **Douglas A. Drossman, MD**, Adjunct Professor of Medicine and Psychiatry at the University of North Carolina School of Medicine and **Edward V. Loftus, Jr., MD**, Professor of Medicine at the Mayo Clinic.

Jefferson Digestive Disease Institute

The Jefferson Digestive Disease Institute (JDDI) offers a full range of clinical services in Gastroenterology and Hepatology. The ambulatory care facilities at Thomas Jefferson University Hospital consist of a newly renovated suite which comprises the outpatient, administrative and secretarial offices for the academic Division of Gastroenterology and Hepatology. For more information, please visit us on the web at Jefferson.edu/Digestive.

Learning Objectives

At the conclusion of the program, the participants should be able to:

Integrate an evidence-based approach to the diagnosis and management of

- Esophageal and gastroduodenal disorders with emphasis on celiac disease, esophageal cancer, refractory gastroesophageal reflux disease (GERD), and foreign bodies of the upper gastrointestinal (UGI) tract.
- Pancreatic and hepatobiliary disorders, including idiopathic pancreatitis, novel surgical and medical therapies for pancreatic cancer, hepatitis C in 2015, surgical risk management of the cirrhotic patient, and the spectrum of drug induced liver injury.
- Patients with chronic abdominal pain and periprocedural management of anticoagulants and antithrombotic agents.
- Inflammatory Bowel Disease (IBD) and the at-risk patient, and novel treatment approaches.

- Small bowel and colonic disorders, including screening for hereditary colorectal cancer, role of endoscopy in obscure GI bleeding, practical approach to anorectal disorders, guidelines for pharmacological management of IBS, and guidelines for the management of colonic ischemia.

Improve patient care and outcomes through

- Review and analysis of relevant practice guidelines.
- Adopting strategies to integrate evidence based guidelines into practice.

Assess their individual practice in light of the information and discussions during the course, and identify specific strategies to implement as part of a continuing improvement process for their practices.
