LIVE from Thomas Jefferson University Hospital:
Faster, Safer, Less-Invasive, Hip-Replacement Surgery

Live Webcast:

**Small Incision Total Hip Replacement
Wednesday, January 15, 2003, at 4:30 p.m.**

**Go to: www.JeffersonHospital.org/webcast
or www.discoveryhealth.com.**

Replay version available beginning January 17

A STATE-OF-THE-SCIENCE PROCEDURE: From the convenience of your home, office, or laptop computer, watch William J. Hozack, MD, demonstrate the best-practice, standard of care for hip-joint replacement surgery, using a small incision and briefer operating time. Renowned orthopedic surgeon Richard H. Rothman, MD, PhD, who has helped to pioneer hip replacement techniques, will narrate this live procedure, running approximately 60 minutes.

SHORTER SURGERY, BETTER POST-OP. RESULTS: Using an incision of about four to six inches, Jefferson's surgeons replace the hip joint with less trauma to the surrounding tissue, while keeping the procedure to an unprecedented 35 to 45 minutes in duration, further decreasing the risk of infection.

VIA THE WEB: We suggest that you visit one of our sites in advance to assure that you have, or that you download, the required software.

CONTINUING MEDICAL EDUCATION CREDITS AVAILABLE: Physicians may sign up at www.JeffersonHospital.org/webcast to receive CME credits for viewing this webcast.

Physicians who wish to discuss a case or refer a patient to a Jefferson orthopedic surgeon, please call 215-955-0215.

This activity has been approved for AMA PRA Category 1 credit. Jefferson Medical College of Thomas Jefferson University, as a member of the Consortium for Academic Continuing Medical Education, is accredited by the ACCME to provide continuing medical education for physicians.
