Department of Neurology & Jefferson Sleep Disorders Center Present

“STROKE AND SLEEP”
A Special CME Grand Rounds

Friday, November 14, 2014
Dorrance H. Hamilton Building, Connelly Auditorium
8:00 AM - 9:00 AM

featuring

Antonio Culebras, MD
Professor of Neurology
Upstate Medical University
State University of New York at Syracuse
Consultant, Upstate University Hospital at Community General
Syracuse, New York

Dr. Culebras is a Professor of Neurology at the State University of New York at Syracuse and Consultant at Upstate University Hospital at Community General. He earned his medical degree from the University of Madrid and is certified by the American Board of Psychiatry and Neurology. He received the Doctorate of Medicine (PhD equivalent) from the University of Alicante, Spain. Dr. Culebras has lectured in English and Spanish in over 30 countries around the world. He has published 5 books in sleep disorders, has co-edited 2 books on cerebrovascular disease, has published over 200 articles in professional journals, and has served or serves in the editorial board of 15 national and international neurological publications.

Introduction by Drs. Abdolmohamad Rostami, MD and Karl Doghramji, MD
This presentation will explore the multiple relationships between sleep and stroke, summarizing the current evidence and recommendations for management and risk reduction. At the conclusion, participants should be able to:

- Develop a methodology for the systematic assessment of obstructive sleep apnea syndrome (OSA) and other sleep disorders in patients who are either vulnerable to stroke, or who have undergone stroke.
- Identify the spectrum of treatment modalities for OSA and assimilate practice guidelines for treatment in the primary care and specialty settings, focusing on underlying sleep disorders and their potential impact on stroke severity and outcome.

There is No Registration Fee for this event.
Please make sure to sign-in at the Registration Desk upon your arrival.
Exhibits open at 7:45AM.
