20th Anniversary Jefferson Anesthesia Conference

Learner Objectives
At the conclusion of this conference, participants should be able to:

- Apply the concept of Enhanced Recovery After Surgery (ERAS) to improve patient outcomes.
- Apply the full scope and major operational elements of a prototypic comprehensive Perioperative Surgical Home model.
- Identify the potential impact of strategies such as fluid management, glycemic control, temperature control and protective ventilation on perioperative outcome.
- Identify behavioral and system issues that contribute to errors in medicine.
- Identify new aspects in pediatric regional anesthesia with regards to new surgical indications.
- Apply new up-to-date techniques in the placement of peripheral, single injection and continuous blocks, including the use of ultrasound.
- Identify how to avoid malpractice lawsuits and properly prepare for litigation.
- Apply the USP 797 Standards relating to drug and infusion preparation in regional anesthesia and acute pain medicine.
- Develop anesthetic strategies for ambulatory surgery.
- Identify the benefits of ambulatory regional analgesia and implement a regional analgesia program at their institution.
- Develop systems to improve practice and reduce malpractice exposure.
- Develop anesthetic strategies for neonatal emergencies.
- Identify the challenges of postoperative pain management in substance abusers and implement rationale, evidence-based strategies for the management of these patients.
- Develop anesthetic strategies for the obese parturient.
- Apply systematic pathways to reduce risks in obstetrics.
- Assess their individual practices in light of the information and discussions during the course, and identify specific strategies to implement as part of a continuing improvement process for their practices.

20th Anniversary Jefferson Anesthesia Conference

Big Sky Downhill Ski Resort

Located in southwestern Montana 50 miles from Yellowstone National Park, Big Sky has a unique pristine beauty. Big Sky, with its lodges, shops, and restaurants, is easily accessed via excellent jet service to nearby Bozeman. The nationally renowned Lone Mountain Guest Ranch offers 75 kilometers of professionally groomed Nordic trails for all levels of cross-country skiers. Located five miles from the conference center, the scenic trails wind through forested areas, open meadows and continue onto high alpine terrain. PSIA certified instructors teach beginning to advanced striding, skating, as well as group and private lessons. Naturalists guide backcountry tours of Yellowstone National Park and the Spanish Peaks wilderness area. Gourmet meals and a full-service Nordic ski shop are available on-site. Free shuttle bus service connects the Ranch and the conference center; however, car rental offers the Nordic skier even greater flexibility.

Big Sky Downhill Ski Resort recently expanded its vertical rise to 4,180 feet. Big Sky has 3,500 skiable acres, with runs that are 10% beginner, 47% intermediate and 43% expert. The Lone Peak tram opens previously inaccessible chutes and couloirs, plus three new bowl areas above the Lone Peak treeline. Big Sky offers big skiing days; the runs are long, the lifts swift, and crowds are rare. Big Sky’s average annual 33 foot snowfall, keeping the resort open until late April, is complemented by snowmaking. Kids ski free—up to two kids age 10 or under per paying adult. Children’s ski school (ages 4–14, 406-995-5743) and child care (ages 1-1⁄2–5, 406-995-5847) are available.

All lectures will be at the Yellowstone Conference Center, adjoining the Huntley Lodge at the base of the downhill mountain.
