CREDITS OFFERED
May 8, 2014  8.0 Continuing Education Credits 
May 9, 2014  7.5 Continuing Education Credits 
May 10, 2014  4.0 Continuing Education Credits

The Mental Health Professional Group (MHPG) of the American Society of Reproductive Medicine (ASRM) is approved by the American Psychological Association (APA) to sponsor continuing education for psychologists. The MHPG maintains responsibility for this program and its content. Continuing education credits will be provided through the Pennsylvania State Board of Social Workers, Marriage and Family Therapists, and Professional Counselors for Social Workers, Marriage and Family Therapists and Professional Counselors.

COURSE DESCRIPTION
Join us for the First Thomas Jefferson University course designed specifically for infertility counseling sponsored by the Department of Obstetrics & Gynecology in Philadelphia, PA. Clinicians are facing more challenges for infertility counseling due to advances in the assisted reproductive technologies and the associated psychological, ethical and legal issues that accompany those advancements. The first day will introduce basic concepts and skills needed for the many aspects of working with individuals needing assistance to build their families. The second and third days are more advanced training drawn from “real life” cases as well as ethics training, and a novel “psychology lab” (using live actors) for exploration of the inter-professional challenges associated with complex clinical cases.

COURSE OBJECTIVES
THURSDAY, MAY 8  
Basic Infertility Counseling Issues 
At the conclusion, participants should be able to:
· Describe the different types of families made possible by ART, gamete donation and surrogacy
· Summarize the legal issues and challenges for families of ART, gamete donation and surrogacy
· Identify some of the challenges to providers in counseling these new ART families

FRIDAY, MAY 9  
Advanced Infertility Counseling Issues 
At the conclusion, participants should be able to:
· Identify the psychosocial challenges for oncology patients and family building
· Describe the current psychological issues for each stakeholder with egg freezing and emerging professional standards
· Summarize some of the best tools for psychoeducation and informed consent

SATURDAY, MAY 10  
Ethical Issues with Infertility Counseling and Psychology Lab 
At the conclusion, participants should be able to:
· Identify areas of conflict for partners pursuing parenthood
· Discuss the different roles for mental health professional with educating, counseling and screening stakeholders
· Describe the ethical considerations in third party parenting.

IMPORTANT REMINDER! A participant may arrive no more than 10 minutes late nor leave more than 10 minutes early to receive credit for a program. Please arrive early to check in for each day!
